### **Safety and Warranty**

1. Read these safety instructions carefully.
2. Keep this user's manual for later reference.
3. Disconnect this equipment from any AC outlet before cleaning. Do not use liquid or spray detergents for cleaning. Use a damp cloth.
4. For pluggable equipment, the power outlet must be installed near the equipment and must be easily accessible.
5. Keep this equipment away from humidity.
6. Put this equipment on a reliable surface during installation. Dropping it or letting it fall could cause damage.
7. The openings on the enclosure are for air convection. Protect the equipment from overheating. **DO NOT COVER THE OPENINGS.**
8. Make sure the voltage of the power source is correct before connecting the equipment to the power outlet.
9. Position the power cord so that people cannot step on it. Do not place anything over the power cord.
10. All cautions and warnings on the equipment should be noted.
11. If the equipment is not used for a long time, disconnect it from the power source to avoid damage by transient over-voltage.
12. Never pour any liquid into an opening. This could cause fire or electrical shock.
13. Never open the equipment. For safety reasons, only qualified service personnel should open the equipment.
14. If any of the following situations arises, get the equipment checked by service personnel:
  - a. The power cord or plug is damaged.
  - b. Liquid has penetrated into the equipment.
  - c. The equipment has been exposed to moisture.
  - d. The equipment does not work well, or you cannot get it to work according to the user's manual.
  - e. The equipment has been dropped and damaged.
  - f. The equipment has obvious signs of breakage.
15. **DO NOT LEAVE THIS EQUIPMENT IN AN UNCONTROLLED ENVIRONMENT WHERE THE STORAGE TEMPERATURE IS BELOW -20° C (-4°F) OR ABOVE 60° C (140° F). IT MAY DAMAGE THE EQUIPMENT.**

## Chapter 1

# *Introduction*

### **AerMonitor ( AM-1017 ) Introduction**

AerMonitor is a 17 inch bezel free monitor which is slim, compact, and yet tough enough for any environment. With easy accessed on screen display controls, users can adjust brightness and display is a compatible component and can be easily removed and installed on the FEC AerPOS Terminal Series.

#### **Main Features:**

- Reliable Tempered Glass on Projective Capacity Touch ; Bezel Free Design
- The high quality of resistive touch or durable tempered glass of projective capacitive touch both are IP65 front panel compliant.
- Space Efficiency and compact Size - Fits for any kinds of POS applications
- Various peripheral devices support.
- Integrated VFD/LCM customer display and the 2<sup>nd</sup> 15" LCD pole display.

## Chapter 2

### MSR / Finger Print Reader/ RFID / i-Button Installation

1. Remove the plastic cover at the back of Touch Display Module

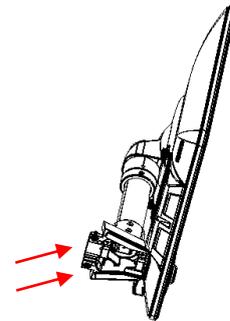

2. Insert the MSR / RFID / Finger Print Reader / I-button Module into USB A-Type Connector. Fix the Touch Display Module with one screw.

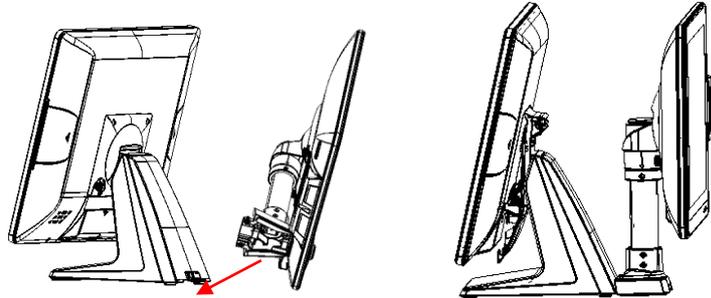

3. Make sure the USB connected and screw is fastened well.
4. If you are looking for the detail Utility of MCR, Finger Print Reader, I-button Reader, RFID Reader, please contact FEC's FAE.

### 15" 2<sup>nd</sup> Pole Type VFD / LCM Installation

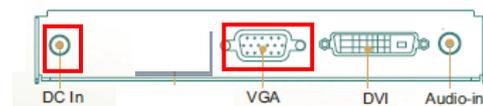

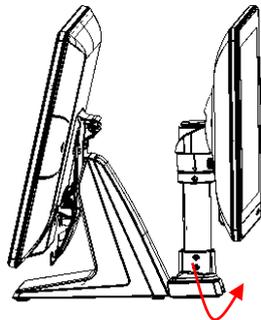

1. Assemble the 2<sup>nd</sup> screen with pole type with 2 screws

2. Assemble the 2<sup>nd</sup> Screen with pole type to Terminal.

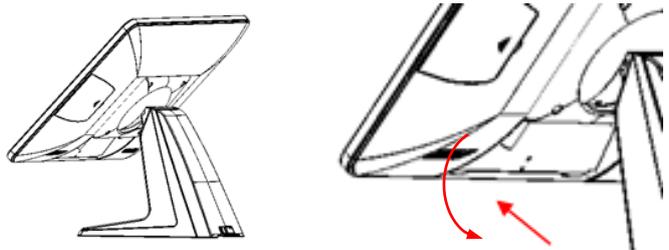

3. Plug in VGA and DC 12V cables

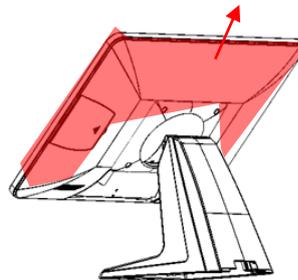

Note : They should connect to the system.

### 17" 1<sup>st</sup> Touch Display Installation & Swapping

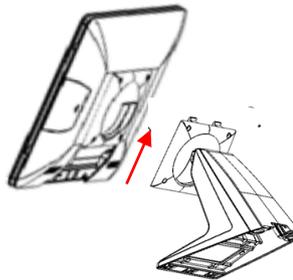

1. Release 2 thumb screw at the back side of Display

2. Lift the Display Module up to disassemble from the main unit of terminal

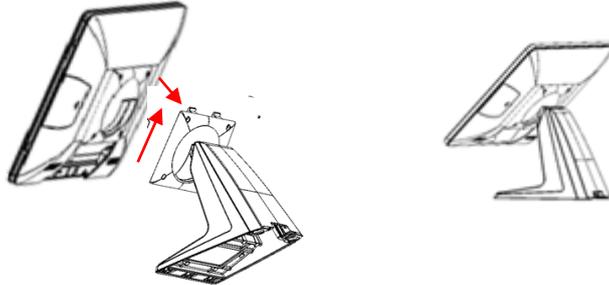

3. Display and Aer monitor base are separated.

4. Reverse the process can assembly back the touch display module.

**\*\* please make sure the touch display module is firmly connected to the docking slot  
\*\***

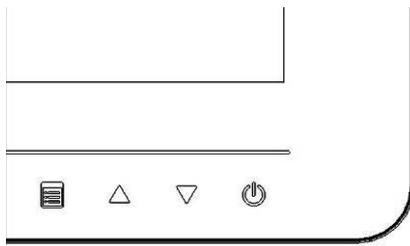

**\*\*Note\*\***

During the process of disassembly and installation, please ensure the terminal is "Power Off" and remove AC.

## OSD Function and Adjustment

### OSD function and adjustment

|   |  |
|---|--|
|  | <b>Back Light Power (finger touch for 5 seconds)</b><br>Back Light Power On – <b>Blue</b> LED indication<br>Back Light Power Off – <b>Red</b> LED indication |
|  | <b>Menu item up select, item value increase and auto tune</b>  |
|  | <b>Menu item down select and item value decrease</b>   |
|  | <b>Display OSD menu and enter</b><br>Next page   |

All buttons are invisible till one touch of any. After 5 seconds, the lights will back to invisible without further touch.

### Menu Function Introduction

| Menu                 | Function                                     |
|----------------------|--|
| 1) AUTO SETUP        | auto tune                                    |
| 2) BRIGHTNESS        | brightness adjustment                        |
| 3) CONTRAST          | picture contrast adjustment                  |
| 4) DISPLAY ADJUST    | picture parameter adjustment                 |
| 5) COLOR TEMPERATURE | color temperature adjustment                 |
| 6) LANGUAGE          | multi-language setup                         |
| 7) OSD DISPLAY       | OSD parameter setup                          |
| 8) VGA/DVI           | VGA/DVI signal setup                         |
| 9) AUDIO             | audio function adjustment                    |
| 10) RECALL           | reset all menu item value to default setting |
| 11) EXIT             | exit OSD menu                                |

## Chapter 3

# Software Installation and Setup

AM-1017 comes with a variety of drivers for different operating systems.

You can download all the necessary drivers and utilities from <http://www.fecpos.com>.

## FEC P-Capacitive/ Resistive Touch Utility (EETI Controller)

FEC Projective – Capacitive Touch Utility Introduces:

1. **Mode of FEC Capacitive Touch Panel and default settings**
2. **EETI TouchKit Tools Installation**

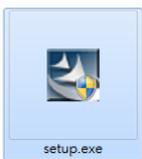

### Mode of FEC P-Capacitive/ Resistive Touch Panel

|            | Win XP, POS Ready 2009 | Win7, POS Ready7        |
|------------|------------------------|-------------------------|
| Mouse Mode | Yes<br>Driver Needed   | Yes<br>Driver Needed    |
| Touch Mode | N/A                    | Yes<br>No Driver Needed |

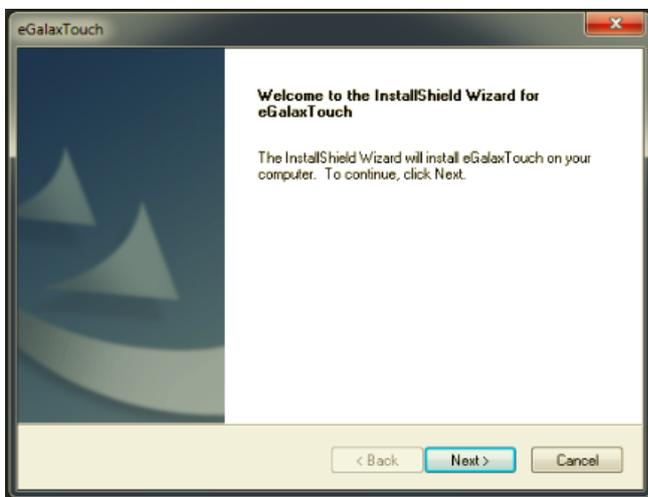

### EETI TouchKit Tools Installation

#### EETI TouchKit Tools Installation for Windows XP

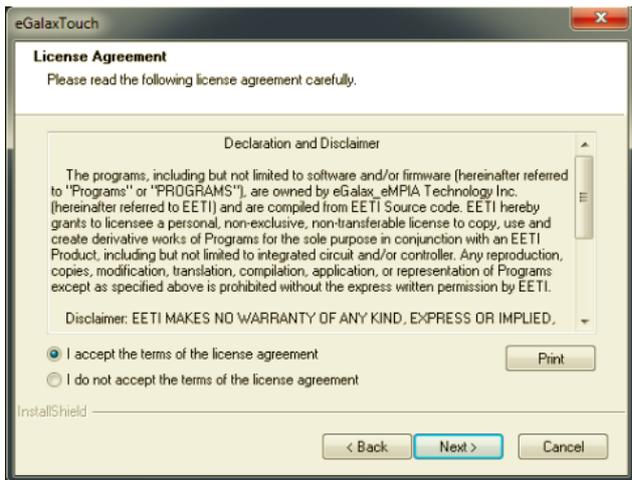

1. Down load Touch Kit for WinXP from FEC website.
2. Execute **Setup.exe**

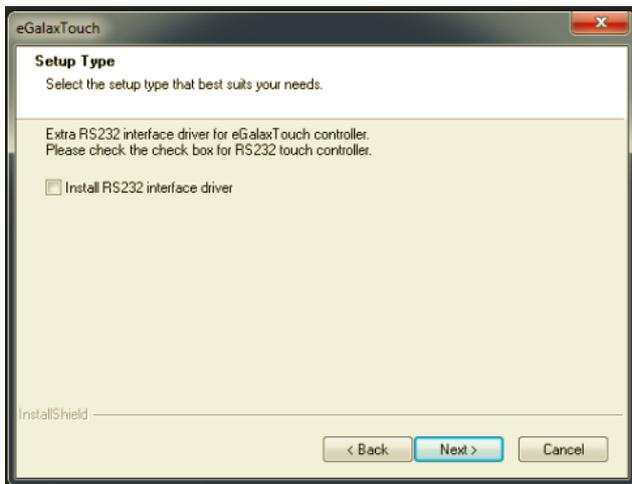

3. Click **Next**

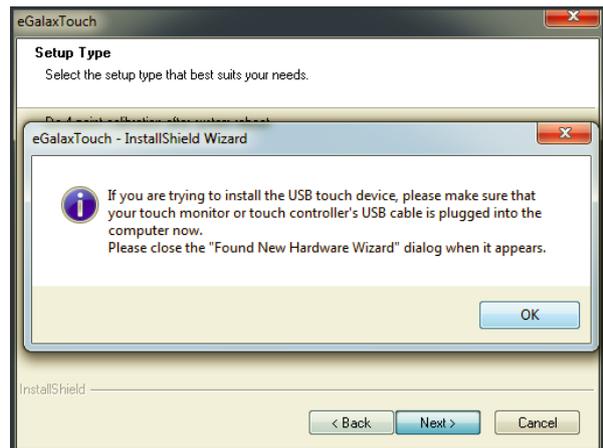

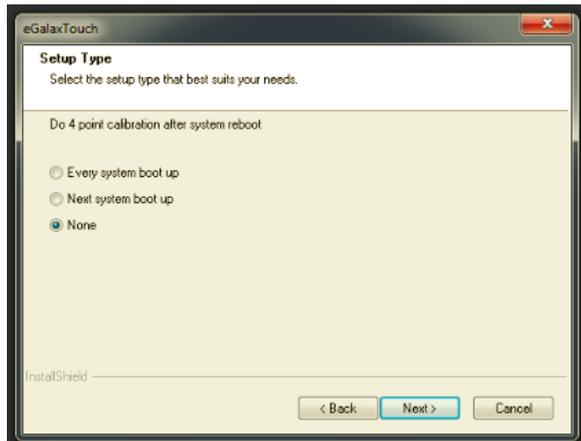

4. Click **Next**

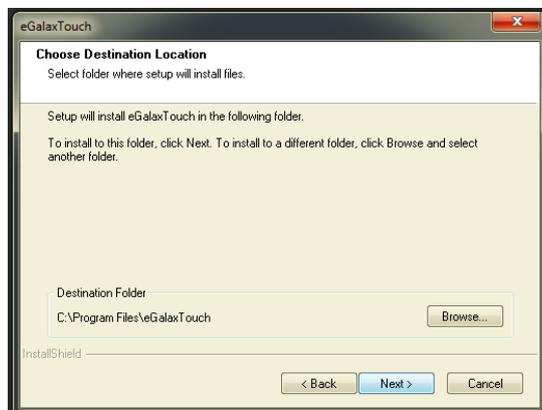

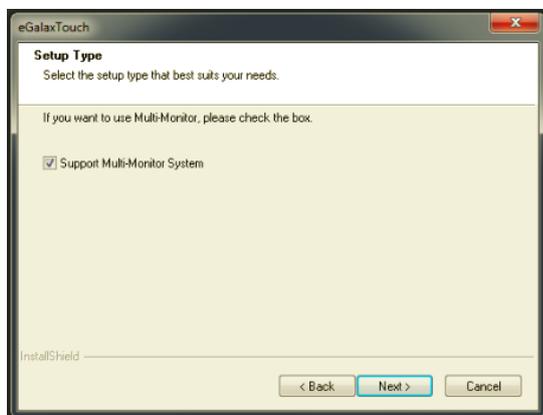

5. Click Next and do not choose RS232

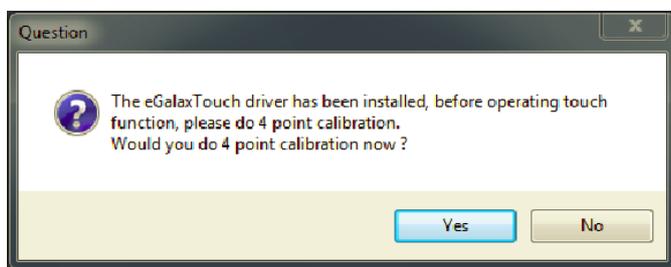

6. Select None

### 7. Click Next for further installation process

### 8. Select No

## TouchKit Control Panel for P-Capacitive/ Resistive Touch

This section explains the different options in the TouchKit control Panel.

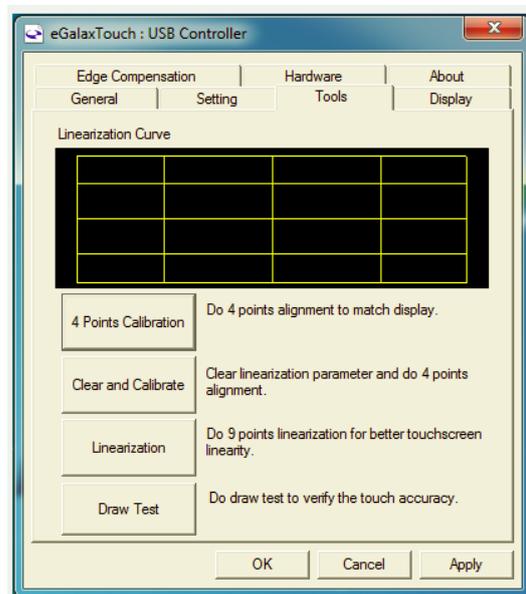

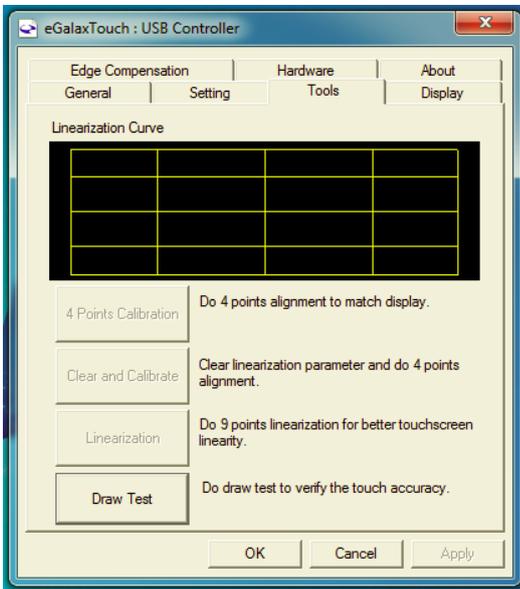

### Tools tab

#### P-Capacitive

Do not need to calibrate the touch screen with the **4 Points**.

#### Resistive

The tools tab allows you to below calibrate the touch screen with the **4 Points**.

### Chapter 4

### ***Troubleshooting***

Please note that the following troubleshooting guide is designed for people with strong computer hardware knowledge or Engineers and Maintenance.

#### **Touch Panel Does Not Work**

- A) Check “Touch Display Module” is connected well with terminal.
- B) Check HID USB touch device is detected by OS.
- C) (Resistive Touch) Check if the EETI driver or the TouchKit driver has been properly installed. Or try to re-install again (Please refer to the EETI driver and touch kit installation).
- D) (Capacitive Touch) Check if the capacitive touch is automatically detected by Windows 7, or properly installed the touch driver in Windows XP.
- E) Check well cabling between touch panel and touch controller
- F) (Capacitive Touch Calibration) Reboot the system, and the Capacitive Touch can be calibrated automatically.

#### **OSD Panel Cannot Work Precisely**

- A) Please touch each single OSD button for more than two seconds in order to trigger the function.
- B) Make sure the finger is not touching more than one button each time.
